

## The Doctors Clinic Physician Connect

The Doctors Clinic has implemented Microsoft's Remote Desktop Services Gateway (RDG) solution to publish its EMR application (Sage iEHR) to healthcare providers in our community and to TDC physicians working remotely.

Microsoft's Windows 7 automatically supports all Physician Connect features such as Web Single Sign-On.

### Recommended requirements:

- Client computer is running Microsoft's Windows 7 operating system.

### Minimum requirements:

- Client computer is running Windows XP with SP3. Updates are available via Windows Update; please have your I.T. department assist you.
  - Remote Desktop Connection 7.0 client update:  
<http://support.microsoft.com/kb/969084>
  - Credential Security Support Provider (CredSSP) in Windows XP SP3
