Philosophy or Purpose

The Doctors Clinic, now a part of Franciscan Medical Group is committed to providing Healthcare Providers in the local community read- only access to Intergy EHR Software by Greenway via “Intergy EHR Connect” (a remote desktop gateway/host application read-only access) to facilitate improved patient care, integrate patient care services at all levels of delivery, increase efficiency in communicating patient information, decrease unnecessary duplicative tests and services in the community. Assist all Parties in effectively delivering care and collecting, storing, retrieving, protecting patient care information and other related information.
